The Institute of Museum and Library Services honors ten of the nation’s museums and libraries for their extraordinary contributions to the communities they serve. IMLS is the nation’s primary source of federal support for museums and libraries, working toward achieving a democratic society where communities and individuals thrive with broad public access to knowledge, cultural heritage, and lifelong learning.

This year, IMLS celebrates the 20th anniversary of the National Medal for Museum and Library Service. Including the 2014 winners, 142 museums and libraries have received this honor.

We congratulate the winners of the 2014 National Medal for Museum and Library Service.

**Brooklyn Botanical Garden**
**Brooklyn, NY**
Brooklyn Botanic Garden is a green sanctuary in the heart of a densely-populated community of over two and a half million residents. It inspires the next generation of environmental stewards and leaders through educational programs in the Garden, hands-on lessons with local schools to help students meet national, state and city science standards, and its partnership with the Brooklyn Academy of Science and the Environment. It is a critical entry point where the community can gain a deeper understanding about the importance of plants and the environment.

**Chicago Public Library**
**Chicago, IL**
The Chicago Public Library serves a city of 2.7 million residents, and offers dynamic, hands-on programs to promote lifelong learning and skills development for all ages. Its Maker Lab is designed to promote critical thinking and offers patrons an introduction to the latest technology. The library’s Summer Learning Challenge goes beyond books to encouraging early learners, teens, and even parents to advance their creativity through art, engineering, and interactive experiences.

**The Children’s Museum of Indianapolis**
**Indianapolis, IN**
Step through the doors of The Children’s Museum of Indianapolis and you’ll quickly realize what 1.2 million visitors already know—it is an extraordinary place for intergenerational learning and fun. With five floors of premier exhibits, a planetarium and a professional children’s theater, it is the world’s largest children’s museum. Here, children and family members of all ages can discover immersive hands-on learning in the sciences, arts and humanities while exploring ancient cultures and new worlds with the help of professional actor-interpreters who bring each of the museum’s galleries to life.

**Las Vegas Clark County Library District**
**Las Vegas, NV**
The Las Vegas Clark County Library District is committed to helping people come together to pursue their individual and group aspirations. A web-based community assessment tool, CommunityConnect, allows the library to target neighborhoods in need and tailor services to combat illiteracy and remove barriers to education. The library’s Teen TechArt Studios program introduces fun, digital technology to youth in workshops, and inspires new career pathways.
Mid-Continent Public Library
Independence, MO

Mid-Continent Public Library is the largest public library system in the state of Missouri and serves a
diverse mix of communities spanning three counties and neighborhoods both urban and rural. The
library focuses on providing access to all though digital delivery systems, and its summer reading
program stimulates young residents’ imaginations while preparing them to read at grade level. Adults
take part in learning too, in 2012 they hosted a year-long reading challenge called 6-in-12 that
couraged adults to read six books in 12 months.

Mystic Aquarium
Mystic, CT
Mystic Aquarium in Mystic, Connecticut is home to one of the nation’s largest outdoor beluga whale
habitats and maintains a diverse collection of more than 4,000 aquatic animals. The aquarium aims to
inspire its 700,000 annual visitors to care for and protect the ocean planet. Community based youth
initiatives at Mystic Aquarium offer hands-on and technology-rich STEM learning and training to meet
workforce demands. Live feeds of exhibits provide access to virtual visitors from all over world.

North Carolina Museum of Natural Sciences
Raleigh, NC
The North Carolina Museum of Natural Sciences is the state’s most visited museum and the largest
institution of its type in the southeastern region of the U.S.. Visitors can observe real scientists at work
through floor-to ceiling glass walls, and take part in an extensive range of exciting programs. Each year,
more than 35,000 visitors attend the museum’s BugFest, the nation’s largest family-friendly event
exploring the world of insects and other arthropods.

Octavia Fellin Public Library
Gallup, NM
The Octavia Fellin Public Library in Gallup, New Mexico is a bastion for free access in its region. The
library provides services to meet the unique needs of its community, which is 75% Native American. It
provides strong education and cultural programs for preschoolers and school children, Native American
history speakers and artisans, teens and adults. The library also provides the tools necessary to
empower visitors through computer access and training and workforce skills development programs.

Sam Noble Oklahoma Museum of Natural History
Norman, OK
The Sam Noble Oklahoma Museum of Natural History offers learning experiences that inspire visitors to
better understand the world. Its exhibits reflect the biological, cultural, paleontological and geological
history of Oklahoma. Programs such as ExplorOlogy partner students with scientists to experience real
science in the field while Native American language programs aid in the preservation and education of
indigenous languages.

Yiddish Book Center
Amherst, MA
The Yiddish Book Center in Amherst, Massachusetts rescues, translates and disseminates Yiddish books
and broadens understanding of modern Jewish literature and culture. The Center has saved more than
one million Yiddish volumes, often recovered at the last minute from homes, demolition sites and
dumpsters, and it has made its collection available online at no cost. This valuable resource, together
with innovative educational programs for students of all ages, is helping to introduce this once endangered literature and culture to new generations.
