

FY 2014 Edit Messages and Conditions

EDIT TYPE CODES

WebPLUS edit messages are coded with 5-digit numbers. The first three numbers are the data element number and the last two numbers are the edit type code. In the example below, the first three numbers represent the data element number for Web Address and the last 2 numbers represent the edit type code for "Invalid" edits. The edit type codes are listed in the following table, followed by the edit messages and conditions.

EXAMPLE: 16220 - CRITICAL EDIT – PHONE number is -2.
