

Dear Colleague -

The Office of Museum Services (OMS) is pleased that you are considering seeking support from the Institute of Museum and Library Services (IMLS) for the important work that you do for your communities as we join together in celebration of the 250th anniversary of American independence.

Now more than ever, we are thrilled to support America's museums, which have a crucial role to play as custodians and promoters of America's rich historical and cultural heritage, for the benefit of all generations. It is our hope that the momentum built by museums' active participation in our shared national celebration will create solid ground on which to teach citizens about what makes our country the greatest in the world for years to come.

We encourage you to carefully read the Notices of Funding Opportunity (NOFOs) for the museum grant programs and shape your proposal in a way that responds to the Goals and Objectives of the program you choose.

In addition to the requirements set out in the NOFOs, OMS encourages you to consider how your work might build upon, or relate to, OMS's field-wide programs and initiatives. OMS particularly welcomes projects that:

- Preserve America's history and make its museums the best in the world, fittingly commemorating the 250th anniversary of American Independence. Applicants are encouraged to read and consider [Executive Order \(EO\) 14344](#), "Making Federal Architecture Beautiful Again," as they work on furthering related projects.
- Foster in all generations a greater appreciation for our country's great natural beauty, military victories and acts of heroism, religious history, scientific accomplishments, regional narratives, and artistic traditions through uplifting and positive narratives of our shared American experience. Applicants are encouraged to read and consider [EO 14253](#), "Restoring Truth and Sanity to American History," as they work on furthering related projects.
- Creatively and effectively use new technologies, including artificial intelligence, to improve visitor experience, modernize curatorship, and improve the quality and resilience of collections. Applicants are encouraged to read and consider [EO 14277](#), "Advancing AI Education for American Youth," as they work on furthering related projects.
- In his inaugural address, President Trump said "We will stand bravely, we will live proudly, we will dream boldly, and nothing will stand in our way because we are Americans." We welcome projects that refocus cultural institutions on what unites us by fostering respectful civil dialogue. In doing so, we acknowledge our core

Constitutional Rights, including Free Exercise of Religion. Applicants may find it helpful to review and consider [EO 14188](#), "Additional Measures to Combat Anti-Semitism," and [EO 14202](#), "Eradicating Anti-Christian Bias," as they work on projects to strengthen American civil society.

To fulfill the President's promise that "the forgotten man and woman will be forgotten no longer," we enthusiastically welcome institutions which serve rural and remote communities to apply, as well as those which haven't traditionally been recipients of federal funding.

Thank you for your interest in working with IMLS as we celebrate America's 250th birthday and further its spirit for years to come. We look forward to partnering with your institution to share our nation's tremendous heritage with all our fellow citizens!

Sincerely,

Keith E. Sonderling

Executive Summary

Inspire Grants for Small Museums (Inspire) is a special initiative of the Museums for America grant program designed to support small museums of all disciplines in project-based efforts to serve the public through educational programs and exhibits, community partnerships, and collections stewardship activities.

The goal of the Inspire program is to build the capacity of small museums to provide museum services to their communities through supporting:

- The development of experiential learning and discovery in small museums; and
- The management and care of collections in small museums.

The primary audiences for this program are small museums, museum professionals, and the publics they serve.

Eligibility is restricted to organizations that are:

- Located in the United States or any U.S. Territories or freely associated States; AND
- A unit of state, local or Tribal government or a private, nonprofit organization; AND
- A museum or a parent entity that operates a qualifying small museum.

A special note regarding small museums: IMLS does not have fixed parameters to determine the size of a museum. All applicants have the opportunity to describe structural or organizational issues that restrict the abilities and capacity of the museum in the Organizational Profile. Attributes that should be addressed include, but are not limited to:

- number of staff members and volunteers;
- estimate of total person-hours worked per week;
- operating budget and sources of revenue;
- number and types of objects in the collection;
- size of facility and property;
- types and numbers of audiences served; and
- size relative to other organizations of the same discipline, or within the same geographic region.

Agency Contact Information

[IMLS staff are available by phone and email](#) to answer programmatic and administrative questions relating to this grant program. We also host webinars to introduce potential applicants to funding opportunities. For more information, [see our list of webinars and instructions for accessing them](#).

2. Eligibility

Eligible Applicants

To be eligible for an award under the Inspire program, your organization must meet **all three** of the following eligibility criteria.

Your organization must be:

- ✓ a unit of State, local, or Tribal government; or
- ✓ a private, nonprofit organization that has tax-exempt status under the Internal Revenue Code of 1954, as amended (you will need to include proof of this if applicable to your organization. [See Conditionally Required Documents](#) for more information);

and:

Your organization must be located in:

- ✓ one of the 50 States of the United States of America,
- ✓ the District of Columbia,
- ✓ the Commonwealth of Puerto Rico,
- ✓ the U.S. Virgin Islands,
- ✓ Guam,
- ✓ American Samoa,

- ✓ the Republic of Palau.

and:

Your organization must qualify as one of the following:

- 3(a) A museum that:
- ✓ uses a professional staff;
 - ✓ is organized on a permanent basis for essentially educational, cultural heritage, or aesthetic purposes;
 - ✓ owns or uses tangible objects, including living collections;
 - ✓ cares for these objects; and
 - ✓ exhibits these objects to the general public on a regular basis through facilities that it owns or operates.

What types of institutions are included in the term “museum”?

If they otherwise meet these requirements, “museums” include, but are not limited to:

- anthropology museums
- aquariums
- arboretums
- art museums
- botanical gardens
- children’s/youth museums
- general museums (those having two or more significant disciplines)
- historic houses/sites
- history museums
- natural history museums
- nature centers
- planetariums
- science/technology centers
- specialized museums (limited to a single distinct subject), and

What does it mean to “use a professional staff”?

An institution uses a professional staff if it employs at least one staff member, or the full-time equivalent, whether paid or unpaid, primarily engaged in the acquisition, care, or exhibition to the public of objects owned or used by the institution.

What does it mean to “exhibit the objects to the general public”?

An institution exhibits objects to the general public if such exhibition is a primary purpose of the institution. An institution that exhibits objects to the general public for at least 120 days a year is deemed to exhibit objects to the general public on a regular basis.

An institution that does not have the exhibition of objects as a primary purpose and/or does not exhibit objects to the public for at least 120 days a

year may be determined to be eligible as a museum under certain circumstances. For more information, please see [2 C.F.R. § 3187.3 Definition of a museum](#).

- 3(b)** A public or private nonprofit agency that is responsible for the operation of a museum that meets the eligibility criteria in 1, 2, and 3(a), applying on behalf of the museum.

Native American Tribal organizations are encouraged to apply if they otherwise meet the above eligibility requirements.

Eligibility of Museums Located within a Parent Organization

A museum located within a parent organization that is a State, local, or Tribal government or multipurpose nonprofit entity, such as a university, historical society, foundation, or cultural center, may apply on its own behalf if the museum:

- has the authority to make the application on its own.

When any of the last three conditions cannot be met, a museum may only apply through its parent organization.

- its sole mission is to support the specified museum;
- it has the ability to administer the project; and
- it can ensure compliance with the terms of this Notice of Funding Opportunity and the applicable law, including the [IMLS Assurances and Certifications](#).

We require that you provide an agreement from the museum that details the activities the applicant and museum will perform and binds the museum to the statements and assurances in the application.

Other Eligibility Information

Application Limits

- Applications for renewal or supplementation of your currently active IMLS awards are not eligible to compete with applications for new awards.
- If eligible, you may submit multiple applications for support of separate and distinct projects under this announcement and/or through other IMLS grant programs.

Partnerships and Collaborations

- Applications involving partnerships or collaborations are welcome.
- When two or more institutions or organizations work together on a project, one of them must meet all eligibility requirements, serve as the lead applicant, and administer the award on behalf of the other(s).
- If we fund the project, the lead applicant will be programmatically, fiscally, and legally responsible for the award.

Ineligible Applicants

- We will not review applications from ineligible applicants. We will notify you if your application will not be reviewed because your organization is determined to be ineligible.
- We will not make awards to ineligible applicants. To receive an IMLS award, your organization must be eligible and in compliance with [applicable IMLS, administrative and national policy requirements](#).

Application Completeness and Deadlines

- Applicants must submit their materials by the deadline indicated in the [Opportunity Overview](#). We won't consider late applications for funding under this notice.
- If your request for federal funding as shown on the IMLS Budget Form, including all direct and indirect costs, is outside the funding range for the project type you select (\$5,000 - \$25,000 for small projects; \$25,001 - \$75,000 for large projects), we may reject your application from consideration for funding in this program.
- Your application must be complete, and your project and budget must adhere to the program's [guidelines](#) and [funding restrictions](#).

Cost Share Requirements

For the Inspire program, the requirements to provide cost share from non-federal sources differ according to the level of funding requested.

Project Type	Funding Level	Cost Share Requirement
Small Project	\$5,000 - \$25,000	Cost share is not required.
Large Project	\$25,001 - \$75,000	<p>At least 1:1 cost share from non-federal sources is required.</p> <p>Note: If you do not include at least 1:1 cost share on the IMLS Budget Form, we may reject your application from further consideration.</p>

Cost share is the portion of project costs that is not paid by IMLS funds. Common examples of cost share include cash outlays; contribution of property and services; and in-kind contributions, such as staff or volunteer time that support project activities.

Learn more about [Cost Sharing in the Budget](#)

Cost share is an eligibility criterion and is not considered in peer review of applications.

Calculate any cost share you include in your project budget carefully. If you receive an award, you will be required to meet your cost share commitments.

3. Program Description

Agency Mission, Goals, and Objectives

The mission of the Institute of Museum and Library Services (IMLS) is to advance, support, and empower America’s museums, libraries, and related organizations through grantmaking, research, and policy development. Three agency-level goals, with two objectives each, guide our grantmaking.

Agency-Level Goal 1

Champion Lifelong Learning

Objective 1.1

Advance shared knowledge and learning opportunities for all.

Objective 1.2

Support the training and professional development of the museum and library workforce.

Agency-Level Goal 2

Strengthen Community Engagement

Objective 2.1

Promote broad public engagement.

Objective 2.2

Support community collaboration and foster civic discourse.

Agency-Level Goal 3

Advance Collections Stewardship and Access

Objective 3.1

Support collections care and management.

Objective 3.2

Promote access to museum and library collections.

The Inspire program supports the achievement of these agency-level goals to facilitate the delivery of significant results consistent with the IMLS federal authorizing legislation ([20 U.S.C. §9101](#) et seq.; in particular [§ 9173 \(Museum services activities\)](#)). Each award that we make through the Inspire program will contribute meaningfully to the achievement of both program and agency-level goals.

Inspire Program Goal and Objectives

Inspire has one program goal and two associated objectives. You should align your proposed project with the program goal and one of the associated objectives, and clearly identify your choice in your [project Narrative](#).

Inspire Program Goal:

Build the capacity of small museums to provide museum services to their communities.

Objective 1, Lifelong Learning

Support the development of experiential learning and discovery in small museums.

Objective 2, Collections Stewardship and Access

Support the management and care of collections in small museums.

Performance Measures

We use four performance measures as a basis for understanding how well the Inspire program is meeting its goals and how awardees are managing individual projects.

Effectiveness: The extent to which activities contribute to achieving the intended results of the Inspire program

Efficiency: How well resources (e.g., funds, expertise, time) are used while generating maximum value for the primary audience

Quality: How well the activities meet the requirements and expectations of the primary audience

Timeliness: The extent to which each task/activity is completed within the timeframe proposed

You will need to provide a Performance Measurement Plan to describe how you will use these four performance measures to monitor and assess your performance in carrying out your project and meeting your selected [program goal and objective](#).

[Learn about creating a Performance Measurement Plan.](#)

Costs for Third Parties

When a project requires payment of federal funds to third parties (such as partners, consultants, collaborators, vendors, and/or service providers), it is your responsibility to determine whether you should characterize a third party as a subrecipient or a contractor and include that determination in your agreement with them.

IMLS grant funds may not be provided to any Federal agency serving as a third party.

Learn more:

[2 C.F.R. § 200.1 for definitions of *contract*, *contractor*, *subaward*, and *subrecipient*](#)

[2 C.F.R. § 200.331 \(Subrecipient and contractor determinations\)](#).

Indirect Costs

You can choose to:

- use a rate not to exceed your current indirect cost rate already negotiated with a federal agency;
- use an indirect cost rate proposed to a federal agency for negotiation, but not yet finalized, as long as it is finalized by the time of the award;

Award recipients must follow the IMLS regulations that are in effect at the time of the award.

Guidance for Narrative Sections

Narrative Section

Guidance

Project Justification

- Which **Inspire objective** will your project address?
 - How will your project advance your museum's strategic plan?
 - What need, problem, or challenge will your project address, and how was it identified?
 - Who is the primary audience for your project and how have they been involved in the planning? "Primary audience" refers to those who will be most immediately and positively affected by your project. Identify the number of individuals in the primary audience or in each primary audience, if you identify more than one.
 - Who are the ultimate beneficiaries for this project? "Beneficiaries" refers to those who are likely to be aided in the long-term by your project. They may or may not be the same as your "primary audience."
- For Collections Stewardship and Access projects:***
- Describe and quantify the collections and/or records that are the focus of your project, and their current condition.

Project Work Plan

- What specific activities will you carry out and in what sequence?
- What are the risks to the project and how will you mitigate them?
- Who will plan, implement, and manage your project?
- What time, financial, personnel, and other resources will you need to carry out the activities?
- How will you track your progress toward achieving your intended results?

Narrative Section**Guidance**

Project Results

- What are your project's intended results and how will they address the need, problem, or challenge you have identified?
- How will the knowledge, skills, behaviors, and/or attitudes of the primary audience change because of your project?
- What products will result from your project, and how will you make them accessible to the primary audience?
- How will you sustain the benefit(s) of your project beyond the conclusion of the period of performance?
- ***For Collections Stewardship and Access projects:*** How will the care, condition, management, access to, or use of the museum collections and/or associated data that define the focus of your project improve?

Schedule of Completion

The Schedule of Completion should reflect each major activity identified in your application Narrative and the project dates identified on the SF-424S and the IMLS Budget Form. It should show when each major project activity will start and end. The schedule should be no longer than one page per project year.

See the sample Schedule of Completion below. Save your document as a PDF.

Download and complete the current [IMLS Budget Form \(PDF, 1.67MB\)](#).

Budget Justification

Write a Budget Justification to identify how each expense supports your proposed activities, detail how you calculated all costs, and provide supporting documentation including any that you may have consolidated and summarized on the IMLS Budget Form. We recommend that your

List of Key Project Staff and Consultants

Write a list of only those staff and consultants whose expertise is essential to the success of the project and save it as a PDF. Do not list all staff involved in the project. If you cannot identify key project staff by the application deadline, then list the position title(s) instead. This list must include the Project Director listed in Item 7 of the SF-424S. We recommend limiting this list to one page.

Resumes of Key Project Staff and Consultants

Provide a resume for each person whose expertise is essential to the success of the project. We recommend limiting each resume to two pages. Use standard fonts and formatting and save all the resumes in a single PDF. You must include the resume of the Project Director listed in Item 7 of the SF-424S.

If you cannot identify key project staff by the application deadline, then instead of a resume, provide position description(s) including the qualities, range of experience, and education necessary to successfully implement and complete project activities.

Performance Measurement Plan

Your Performance Measurement Plan should show how you will monitor and assess your performance as an awardee and achieve your selected [program objective](#) from the perspectives of [Effectiveness, Efficiency, Quality, and Timeliness](#) for your overall project.

For each performance measure, identify what data you will collect from what source, the method you will use to collect it, and according to what schedule. The chart below provides sample statements for each measure and a space to record your own. [We've provided a fillable version of this chart](#) (DOCX, 25KB), which you are welcome, but not required, to use. We recommend limiting your Performance Measurement Plan to two pages. Save your document as a PDF.

Eligibility and Completeness Checks

We assess every application to make sure it meets basic requirements for eligibility and completeness. We won't consider an application that:

- does not meet [the eligibility criteria for the program](#)
- is submitted after the [deadline](#)
- requests funding outside of the [applicable range](#)
- does not adhere to the program's [funding restrictions](#) and [guidelines](#).
- is missing [required or conditionally required application components](#)

If your application is rejected during these initial eligibility and completeness checks, we'll notify you by email. If you believe we rejected your application in error, you can appeal the decision via email within ten business days of the date we sent the rejection notice.

Review and Selection Process

We use a peer review process to evaluate all complete applications from eligible institutions. Reviewers are professionals in the field with relevant knowledge and expertise in the types of project activities identified in the applications.

We instruct reviewers to evaluate applications according to the peer review criteria detailed in the next section. Peer reviewers must comply with IMLS's Federal ethics and conflicts of interest requirements.

The Director considers the input from the review process and makes final funding decisions consistent with the purposes of the agency's mission and programs.

[Learn more about our peer review process](#)

Peer Review Criteria

We instruct reviewers to evaluate applications according to the review criteria listed in this section and to consider all [Required, Conditionally Required, and Supporting Documents](#).

Cost share is an eligibility criterion and is not considered in the review of applications. Learn more about [cost share requirements for the Inspire program](#).

Risk Assessment

For awards with a total amount of Federal share greater than the simplified acquisition threshold, we're required to review and consider applicant information in the designated integrity and performance system.

This information is accessible through SAM. The simplified acquisition threshold is currently \$350,000 but is periodically adjusted.

You may review information in the designated integrity and performance systems accessible through SAM and comment on any information about your organization that a federal awarding agency previously entered.

Learn more about the laws and regulations related to suspension and debarment systems, the simplified acquisition threshold, and applicant risk review:

- [41 U.S.C. § 2313](#)
- [41 U.S.C. § 134](#)
- [20 C.F.R. 200.206](#)
- [2 C.F.R. Part 3185](#)

We will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in considering the applicant's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants.

7. Award Notices

We will not release information about the status of an application until we have completed the peer review process and all deliberations.

We expect to notify successful and unsuccessful applicants of final funding decisions by email in August 2026.

Funded Applicants

If your application is funded, we'll send your Authorizing Official, Project Director, and Grant Administrator an email notification with our congratulations and instructions for accessing our electronic grants management system, eGMS Reach. Once you activate your eGMS Reach account, you'll have access to your Official Award Notification, award letter, reporting schedule, IMLS-approved budget document, and anonymized reviewer feedback from your application's peer review.

The signed Official Award Notification is the only document obligating funds and authorizing you to begin performance on its specified dates. Unless you've confirmed and received prior written approval from us that pre-award costs are allowed, incurring those costs before the period of performance is at your own risk.

Unfunded Applicants

If your application is not funded, we'll send your Authorizing Official, Project Director, and Grant Administrator an email notification to let you know that your application isn't being funded. We'll share the number of applications and the total of requested funding we received for the program this year. We'll also provide anonymized reviewer comments and scores to help you understand the decision and help you decide whether to revise the proposal and submit it again to IMLS or another funding agency in the future.

8. Post-Award Requirements and Administration

Administrative and National Policy Requirements

There are important laws and regulations you'll need to understand and comply with if you receive an award. Awardees are subject to:

- [2 C.F.R. part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards](#);
- [2 C.F.R. part 3187 \(IMLS grant regulations\)](#);
- The [IMLS General Terms and Conditions for IMLS Discretionary Grant and Cooperative Agreement Awards](#); and
- The [IMLS Assurances and Certifications](#).

With certain IMLS-specific additions, IMLS regulations at [2 C.F.R. part 3187](#) have formally adopted the Uniform Guidance.

Reporting

Awardees must comply with the following reporting requirements.

Interim and final financial and performance reports are due according to the reporting schedule in your official award documents. You must submit your performance and financial reports in eGMS Reach. We may publish interim and final performance report content on the IMLS website.

You must also comply with [2 C.F.R. §§ 180](#) and [2 C.F.R. part 3185](#) with respect to providing information regarding all debarment, suspension, and related offenses, as applicable.

If the total value of your active grants, cooperative agreements, and procurement contracts from all Federal agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, **you should refer to the reporting requirements reflected in 2 C.F.R. part 200, Appendix XII – Award Term and Condition for Recipient Integrity and Performance Matters.**

IMLS Assurances and Certifications

Applicants for federal funds must certify that they are responsible for complying with certain nondiscrimination, debarment and suspension, drug-free workplace, and lobbying laws.

These are set out in more detail, along with other requirements, in the [IMLS Assurances and Certifications](#).

By submitting the application, which includes the [IMLS Assurances and Certifications](#), you certify that you are in compliance with these requirements and that you will maintain records and submit any reports that are necessary to ensure compliance. Failure to comply with these statutory and regulatory requirements may result in the suspension or termination of an award and require that the recipient return funds to the government.

For information about award termination, please see the [IMLS General Terms and Conditions for IMLS Discretionary Grant and Cooperative Agreement Awards](#) and [2 C.F.R. § 200.340 Termination](#).

Acknowledging IMLS Support

Awardees must include acknowledgement of IMLS support in all grant products, publications, websites, and presentations developed with IMLS funding.

All work products should reference IMLS and include the associated award number(s). [Our Grantee Communications Kit](#) provides guidance for fulfilling these requirements.

Conflict of Interest Requirements

Awardees must follow IMLS conflict of interest policies for federal awards. You must disclose in writing any potential conflict of interest to an IMLS Program Officer, or to the pass-through entity if you are a subrecipient or contractor. This disclosure must take place immediately whether you are an applicant or have an active IMLS award.

The IMLS conflict of interest policies apply to subawards as well as contracts, and are as follows:

- You must maintain written standards of conduct covering conflicts of interest and governing the performance of your employees engaged in the selection, award, and administration of subawards and contracts.
- None of your employees may participate in the selection, award, or administration of a subaward or contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, agent, board member, or any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from an organization considered for a subaward or contract. The officers, employees, agents, and board members of your organization must neither solicit nor accept gratuities, favors, or anything of monetary value from subrecipients or contractors or parties to subawards or contracts.
- If you have a parent, affiliate, or subsidiary organization that is not a state, local, or tribal government, you must also maintain written standards of conduct covering organizational conflicts of interest. Organizational conflicts of interest means that because of relationships with a parent company, affiliate, or subsidiary organization, you are unable or appear to be unable to be impartial in conducting a subaward or procurement action involving a related organization.

Additional Information about IMLS

Visit the [IMLS website](#) for additional information on IMLS and IMLS activities.

IMLS Obligations to Make Awards

This announcement does not obligate IMLS to make any federal award or commitment.

Peer Review

Any individual who is interested in serving as a peer reviewer is welcome to enter their contact information and identify their experience and expertise through the IMLS [online reviewer application portal](#). IMLS staff will notify the individuals who are identified as potential reviewers by email prior to the next review period to confirm availability.

Copyright Information

Awardees may copyright any work that is subject to copyright and was developed under an award or for which ownership was acquired under a federal award. IMLS reserves a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use the work for federal purposes and to authorize others to do so. For additional information, [please see 2 C.F.R. § 200.315 \(Intangible property\)](#).

Application Completion Time

Complete applications include the elements listed in the [Table of Application Components](#). IMLS estimates the average amount of time needed for one applicant to complete the narrative portion of this application to be 35 hours. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and writing and reviewing the answers.

We estimate that it will take an average of 30 minutes per response for the IMLS Museum Program Information Form and three hours per response for the IMLS Budget Form.

We welcome your suggestions for improving this collection of information and for making it as easy to use as possible. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to [our Office of Grants Management](#). Please note that applicants are not required to respond to any collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

Guidance for Required Registrations

Getting a Unique Entity Identifier

The Unique Entity Identifier (UEI) number is a non-proprietary alphanumeric identifier assigned to all entities (public and private companies, individuals, institutions, or organizations) who register to do business with the Federal Government. The UEI is requested in, and assigned by, the System for Award Management (SAM).

Awardees must inform any first-tier subrecipients that the awardee may not make a subaward unless the subrecipient has also obtained a UEI. First tier subrecipients, but not second-tier subrecipients nor contractors, are required to obtain a UEI. Subrecipients are not required, however, to complete full registration in SAM.gov to obtain their UEI.

If your organization has an active SAM registration, you can find your assigned UEI in your SAM record. The organization's UEI must be active at the time of application and award. If you don't yet have an active SAM registration, you will receive a UEI when you register in SAM.

[Learn more about the UEI.](#)

Registering with SAM

The System for Award Management (SAM) is a federal repository that centralizes information about grant applicants and awardees. It is always free to all users. You must register with SAM before registering with Grants.gov. [Learn how to check an organization's registration status in SAM.](#)

If you're registering with SAM for the first time, you must begin by creating a SAM user account through [Login.gov](#). [Click here to learn how to create a secure Login.gov account.](#) Then [proceed to the SAM registration process.](#)

We recommend that you allow several weeks to complete the SAM registration.

You must always maintain an active SAM registration with current information while you have an active award or an application under consideration. We may not make an award to you until you have complied with all applicable Unique Entity Identifier and SAM registration requirements. If you have not fully complied with the requirements by the time we're ready to make a federal award, we may make an award to another applicant.

You must renew your organization's registration in SAM at least every 12 months or whenever your organization's information changes. An expired registration will prevent you from submitting applications via Grants.gov and receiving awards or payments. Award payments will be made to the bank account that is associated with your organization's SAM registration.

Registering with Grants.gov

[Grants.gov](https://www.grants.gov) is the centralized website for grant seekers to find and apply for federal funding opportunities. Grants.gov is owned and operated by the Federal Government and is always free to all users.

You must [register with Grants.gov](#) prior to applying. The multistep registration process cannot be completed in a single day. You should make sure your institution's SAM registration is current and active before registering with Grants.gov. If your organization is not already registered, allow several weeks before the application deadline to complete this one-time process. **Do not wait until the day of the application deadline to register.**

The Grants.gov user ID and password you obtain when you register are required to submit your application.

After your organization registers with Grants.gov and creates an Organizational Applicant Profile, the request for the organization's Grants.gov roles and access is sent to the eBiz POC. The eBiz POC will then log into Grants.gov and assign the appropriate roles to individuals within the organization. This will include the Authorized Organization Representative (AOR) which will give permission to complete and submit applications on behalf of the organization.

TIP: Designating more than one Authorized Organization Representative (AOR) when you register in Grants.gov will help avoid last-minute crises if a single AOR is unavailable when you are ready to submit the application. It is also important to update the contact information and password in Grants.gov whenever an AOR changes.

Visit [Grants.gov/Support](https://www.grants.gov/Support), email support@grants.gov, or call Grants.gov Applicant Support at 1-800-518-4726 for technical assistance. Grants.gov Applicant Support is available 24 hours a day, seven days a week, except for federal holidays.

NOTE: We use [Login.gov](#) for user authentication in our electronic grants management system, eGMS Reach. Login.gov helps protect user identity through stronger passwords and two-factor authentication.

Login.gov requires that the email addresses for the Project Director, Primary Contact/Grants Administrator, and Authorized Representatives in Items 7, 8, and 9 on the SF-424S Form be unique to those individuals. General email addresses or those used by several people in a single office are not acceptable.

Item 7. Project Director

The Project Director will have primary responsibility for carrying out your project's activities. Enter the requested information for this individual here.

We require that the Project Director be a different person than the Authorized Representative.

SF-424S Item

Instructions

Item 8. Primary Contact/Grants Administrator

The Primary Contact/Grants Administrator has the core responsibility for administering the award. Enter the requested information for this individual here.

Please still complete both items 8 and 9 if the Primary Contact/Grants Administrator is the same as the Authorized Representative.

In some organizations this individual may be the same as the Project Director. If this is the case, check the box and skip to Item 9.

Item 9. Authorized Representative

The Authorized Representative has the authority to legally bind your organization. Enter the requested information for this individual here. **The Authorized Representative cannot be the same person as the Project Director.**

By checking the “**I Agree**” box at the top of Item 9, this individual certifies the applicant’s compliance with the [IMLS Assurances and Certifications](#) and any other relevant federal requirements.

Grants.gov automatically populates the “Signature of Authorized Representative” and “Date Signed” boxes upon submission of the application. This is the person whose name was listed as your organization’s authorized representative when you registered with Grants.gov.

Please note that this name might not be the same as the name and other information you entered in Item 9 above.

By submitting the electronic application, you acknowledge that your organization certifies compliance with relevant federal requirements, including but not limited to the [IMLS Assurances and Certifications](#), to the same extent as a signature does on a paper application.

The IMLS Budget Form accommodates up to three years of project activities and expenses. Project timelines, allowable costs, and other budget details vary by program. Be sure to review the Notice of Funding Opportunity for the grant program/project type to which you are applying and the cost principles in 2 C.F.R. part 200 and 2 C.F.R. part 3187.

The Year 1 columns should include costs for activities that begin on the project start date (as listed on 6c of the SF-424S) and end 12 months later. If the project timeline exceeds one year, list the costs for the next 12 months in the Year 2 columns. If the project extends beyond two years, list the costs for the next 12 months in the Year 3 columns.

Learn more about the regulations and requirements related to cost principles for federal awards:

- [2 C.F.R. 200 Subpart E - Cost Principles](#)
- [2 C.F.R. part 3187 Subpart C Allowable Costs](#)

Tips for completing your budget form:

- The budget should include the project costs that will be charged to grant funds as well as those that will be supported by cost share, if any.
- In-kind contributions to cost share may include the value of services (e.g., donated volunteer or consultant time) or equipment donated to the project between the authorized start and end dates of your project.
- All the items listed, whether supported by grant funds or cost share, must be necessary to accomplish project objectives, allowable according to the applicable federal cost principles, auditable, and incurred during the award period of performance.
- Charges to the project for items such as salaries, fringe benefits, travel, and contractual services must conform to the written policies and established practices of your organization.
- You must report all revenues generated with project funds during the award period of performance as program income.

- If you need more lines for a specific section, summarize the information in the IMLS Budget Form and explain it further in the Budget Justification.

Budget Form Section

Instructions

1. Salaries and Wages

Include both temporary and permanent staff as well as volunteers engaged in project activities. Document how you calculated salaries and wages in your Budget Justification by including the base salary or wages for each person and the percentage of time each person is allocated to the project activities, which may be shown as a percentage of time, number or days, or number of hours.

2. Fringe Benefits

Fringe benefits can be claimed as a direct cost for only those positions included in your direct cost pool and only on the portion of salaries and wages identified for this project. Indicate your organization's fringe benefit rate (in percent) and the base (in dollars) to which the rate is applied (e.g., 20% x \$175,089.00).

3. Travel

Explain how you calculated each travel cost, including subsistence, lodging, and transportation, in your Budget Justification.

You must use the lowest available commercial fares for coach or equivalent accommodations, and you must use U.S. flagged air carriers for foreign travel when such services are available, in accordance with applicable U.S. legal requirements.

4. Supplies, Materials, and Equipment

List the costs of supplies, materials, and equipment purchased specifically for the proposed project. For definitions and other information, please see [2 C.F.R. part 200](#). Use the Budget Justification to explain or describe these items in further detail.

Budget Form Section Instructions

5. Subawards and Contracts

List each third party that will undertake project activities and their associated costs as an individual line item on your IMLS Budget Form. Designate each third party as either a subaward or a contract using the dropdown menu on each line. Itemize these third-party costs in your Budget Justification.

6. Student Support

If your project includes Student Support costs, enter them in this section. [Refer to Student Support Costs in the Budget](#) for a definition and examples.

7. Other Costs

Use this section for costs that cannot be assigned to other categories. Do not use this section to list items that do not fit in the lines allotted for another section.

8. Total Direct Costs

These amounts will total automatically.

9. Indirect Costs

Indirect costs are expenses that are incurred for common or joint objectives that cannot be easily identified with a particular project. Indicate your organization's indirect cost rate (in percent) and the base (in dollars) to which the rate is applied (e.g., 34% x \$123,456.78). [Refer to Indirect Costs in the Budget](#) for more information.

10. Total Project Costs

These amounts will total and round up to the nearest dollar automatically.

Cost Share in the Budget

Cost share is the portion of the project costs that is not paid by IMLS funds. Common examples of cost share include cash outlays; contribution of property and services; and in-kind contributions, such as staff or volunteer time that support project activities.

All expenses, including cost share, must be incurred during the award period of performance unless otherwise specified and allowed by law. Federal funds from other federal awards may

not be used for cost share. All federal, IMLS, and program requirements regarding the use of funds apply to both requested IMLS funds and to cost share.

[See 2 C.F.R. § 200.306 for more information on cost share.](#)

Indirect Costs in the Budget

Indirect costs are expenses incurred for common or joint objectives and thus cannot be readily associated with a particular project. Some examples include depreciation on buildings and equipment, the costs of operating and maintaining facilities, and general administration and general expenses, such as the salaries and expenses of executive officers, personnel administration, and accounting.

[See 2 C.F.R. 200.414 for additional guidance on indirect costs.](#)

Options for Calculating and Including Indirect Costs in a Project Budget

You can choose to:

- use a rate not to exceed your current indirect cost rate already negotiated with a federal agency;
- use an indirect cost rate proposed to a federal agency for negotiation but not yet finalized, as long as it is finalized by the time of the award;
- use a rate not to exceed 15 percent of Modified Total Direct Costs (MTDC) if the organization currently does not have a Federally Negotiated Indirect Cost Rate Agreement (NICRA) and is not subject to other requirements; or
- not include any indirect costs.

Using a Federally Negotiated Indirect Cost Rate Agreement

A Federally Negotiated Indirect Cost Rate Agreement (NICRA) is a document that reflects an estimate of indirect costs negotiated between the Federal Government and a non-federal organization. There are several types of indirect cost rates (e.g., Provisional, Predetermined, Fixed, Final), and some agreements identify several locations to which a particular rate applies (e.g., on-site/campus, off-site/campus), and/or program types for which a particular rate may be used (e.g., Instruction, Organized Research, All Programs, Other Sponsored Activities).

If your organization already has a NICRA in effect, you may use one of the approved rates in the calculation of your project's indirect costs and by extension, your total project costs, if you apply the appropriate rate and include a copy of the current agreement with your grant application. You may choose to use a rate lower than a rate in your agreement, but you may

not choose a higher one. We will accept only those NICRAs that are current by the award date.

Carefully review your institution's negotiated indirect cost rate(s) to make sure you are using the appropriate rate for your project.

Please be aware that the indirect cost rate used in your approved IMLS budget (and that will also appear on the Official Award Notification if an award is made) will apply throughout the life of your award. You may not use a different rate for the award, even if you negotiate a new rate with your cognizant agency after the award has begun.

Using a Proposed Indirect Cost Rate

If your organization is currently negotiating a NICRA with a federal agency, you may use the indirect cost rate proposed to the federal agency to estimate indirect and total project costs. In such situations, if we issue an award, we will accept the rate only if the negotiations are final by the award date and a copy of the final agreement is submitted to us. IMLS staff will work with you to adjust your budget prior to issuing an award.

Using the 15 Percent De Minimis Indirect Cost Rate

You may choose to charge a de minimis rate of up to 15 percent of Modified Total Direct Costs (MTDC), as long as you do not have a current NICRA and you meet the applicable requirements.

[See 2 C.F.R. part 200](#), including [2 C.F.R. §§ 200.1 \(Definitions\)](#), [200.414\(f\)](#), and [200.510\(b\)\(6\)](#) for additional guidance.

Modified Total Direct Costs include:

- all direct salaries and wages,
- applicable fringe benefits,
- materials and supplies,
- services,
- travel, and
- up to the first \$50,000 of each subaward (regardless of the period of performance of the subawards under the award).

Modified Total Direct Costs exclude:

- equipment,
- capital expenditures,
- charges for patient care,
- rental costs,
- tuition remission,

- scholarships and fellowships,
- participant support costs, and
- the portion of each subaward in excess of \$50,000.

Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

If you are using the up to 15 percent de minimis indirect cost rate, check the box indicated on the IMLS Budget Form. No additional documentation is required.

Applying an Indirect Cost Rate to the Cost Share Portion of a Budget

You may, if consistent with 2 C.F.R. part 200 (Uniform Guidance), apply your indirect cost rate to your total direct costs covered by cost share, but you must account for any costs you claim as cost share in the cost share column on the IMLS Budget Form. IMLS funds can be used for indirect costs, but only for the portion of the total direct costs for which you are requesting IMLS funds (the Grant Funds column). ([See, for example, 2 C.F.R. §§ 200.412-414.](#))

Restrictions on Project Costs Included in Indirect Cost Calculations

If you have a current NICRA, you must follow its conditions and requirements.

As noted above, if you do not have a current NICRA and meet applicable requirements, you may elect to charge a de minimis rate of up to 15 percent of the Modified Total Direct Costs (MTDC) in your indirect cost calculations.

If you have a current NICRA with a rate of less than 15 percent, you must use it rather than the de minimis rate in your indirect cost calculations.

Please see the section above on the up to 15 percent de minimis rate as well as [2 C.F.R. § 200.414\(f\)](#) and [§ 200.1 Definitions](#).

Student Support Costs in the Budget

Students are:

- Individuals enrolled in a community college, undergraduate, or graduate program of study
- Individuals participating in post-master's or post-doctoral programs that are focused on supporting their careers or professional development

- Library, archives, and museum staff participating in education and training activities focused on their careers or professional development

Examples of Student Support include:

- Tuition support for students participating in the project
- Salaries or stipends for graduate assistant work, if their work is focused on research and teaching activities (therefore contributing to their education)
- Pay and benefits for a resident or fellow to work in a position that is intended to support their learning outcomes or professional development
- Costs for travel and conference registration provided to support a student or participant's learning outcomes or professional development
- Costs of supplies and equipment provided to students to support a student's learning outcomes or professional development

Activities not considered Student Support include:

- Students employed in roles that are primarily administrative or clerical, doing work that is not primarily focused on their career or professional development. These costs should be listed in the Salaries and Wages section of the budget, and tuition paid on behalf of these students would not be considered Student Support.

See [2 C.F.R. § 200.466 \(Scholarships and student aid costs\)](#); see also [2 C.F.R. § 200.430 \(Compensation – personal services\)](#).

Budget Justification

To write your Budget Justification, follow the IMLS Budget Form's section headings to organize the document and save it as a PDF. Address both grant funds and cost share, if included. Do not use your Budget Justification to expand your narrative.

Proof of Private, Nonprofit Status

An organization applying as a private, nonprofit institution must submit a copy of the letter from the Internal Revenue Service indicating its eligibility for nonprofit status under the applicable provision of the Internal Revenue Code of 1954, as amended. ([See 2 C.F.R. § 3187.7\(b\).](#)) IMLS will not accept a letter of state sales tax exemption as proof of nonprofit status.

Digital Products Plan

We are committed to expanding public access to digital products created using federal funds. We ask each applicant to create and submit a Digital Products Plan describing how you will address specific aspects of creating and managing digital products, employing practices and standards that are most appropriate for their specific project. IMLS staff and peer reviewers will assess your plan, and it will be important in determining whether your project will be funded. Organize your plan to address the following:

- Type
- Availability
- Access
- Sustainability.

We participate in the Federal Agencies Digital Guidelines Initiative (FADGI), a collaborative effort by federal agencies to define common standards, guidelines, methods, and best practices for creating digital collections. [Visit the FADGI website](#) for a growing list of links to relevant standards, recommendations, and other resources. While this list is not exhaustive—nor do we endorse any specific resource—applicants considering digital projects may find the information useful.

Use the guidance below to help you create and organize your Digital Products Plan.

Type

What digital products will you create?

Most projects are likely to generate digital content, resources, or assets. They may be digitized or born-digital products created by individuals, project teams, or through community gatherings.

Examples include, but are not limited to, still images, audio files, moving images, microfilm, object inventories, object catalogs, artworks, books, posters, curricula, field books, maps, notebooks, scientific labels, metadata schema, charts, tables, drawings, workflows, teacher resources, and software, including source code, algorithms, applications, and digital tools, plus accompanying documentation.

In your Digital Products Plan,

- describe the digital content, resources, or assets you will create or collect,
- the quantities of each type,
- the digital file format(s),
- the accompanying metadata, and,
- any relevant standards you will use.
- If you are developing software, you should also specify the programming languages, platforms, frameworks, software, or other applications you will use to create your software and explain why you chose them.

Availability

How will you make your digital products openly available (as appropriate)?

We encourage grant recipients to make works produced with IMLS support widely available, and to share their work products (including publications, datasets, educational resources, software, and digital content) whenever possible through free and open-access journals and repositories. Your project may involve making digital products available through public or access-controlled websites, kiosks, or live or recorded programs.

We expect you to ensure that publications produced under an award (including but not limited to peer-reviewed manuscripts resulting from research conducted under an award) are made available in a manner that permits the public to access, read, download, and analyze the work without charge.

In your Digital Products Plan,

- describe how you will make the digital content, resources, assets, software, and metadata available to the public;
- include details such as the delivery strategy (e.g., openly available online, available to specified audiences) and underlying hardware/software platforms and infrastructure (e.g., specific digital repository software or leased services, accessibility via standard web browsers, requirements for special software tools to use the content, delivery enabled by IIIF specifications); and
- identify and explain the reasons for any limitations in your Digital Products Plan.

Access

What rights will you assert over your digital products, and what limitations, if any, will you place on their use?

Will your products implicate privacy concerns or cultural sensitivities, and if so, how will you address them?

Award recipients may copyright any work that is subject to copyright and that was developed under an award or for which ownership was purchased. However, IMLS reserves, for Federal Government purposes, a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use the work and authorize others to reproduce, publish, or otherwise use the work.

We expect applicants receiving federal funds for developing or creating digital products to release these files under open-source licenses to maximize access and promote reuse. All work products resulting from IMLS funding should be distributed for free or at cost unless IMLS has provided written approval for another arrangement.

In your Digital Products Plan,

- identify any licenses under which digital products will be shared (e.g., Creative Commons licenses, RightsStatements.org statements);
- describe what intellectual property rights you will assert over your digital products and explain any limitations or conditions you will place on their use, and;
- if your products implicate privacy concerns or cultural sensitivities, describe these issues and how you plan to address them.

Sustainability

How will you address the sustainability of your digital products?

To the maximum extent possible, the digital products created with IMLS funding should be freely and readily available for use and reuse by libraries, archives, museums, and the public.

Some digital products that are generated during a project should be long-lived, requiring permanent preservation, and others (e.g., preliminary analyses, drafts of papers, plans for future work, peer-review assessments, most social media communications, and communications with colleagues) should be retained and shared in the medium- or short-term.

In your Digital Products Plan,

- describe your plan for preserving and maintaining digital products during and after the period of performance;
- identify the appropriate length of time different digital products should be curated;
- address storage systems, shared repositories, technical documentation, migration planning, and commitment of organizational funding for these purposes.

Guidance for Conservation Surveys

The following guidance applies if you're requesting support for general conservation surveys, detailed conservation surveys, and environmental surveys.

General Conservation Survey

A general conservation survey is a broad assessment of all an organization's collections and environmental conditions. Its purpose is to describe conditions, identify conservation problems, and suggest future conservation activities in general terms. For most institutions, it is the logical first step in collections conservation.

The general conservation survey report should include the following:

- an executive summary;
- general information about your museum;
- the goals of the survey;
- an overview of the collections, their condition, and policies governing their care;
- descriptions of the condition of your building, facilities, and all exhibition and storage areas;
- descriptions of climate control and environmental conditions;
- information about staffing, including training needs; and
- recommendations for future conservation care in order of priority (to be used as the basis of a long-range conservation plan).

Detailed Conservation Survey

A detailed conservation survey is a systematic, item-by-item examination of all or part of a museum's collections by a conservation professional. The product of a detailed conservation survey should be a set of condition reports that identifies the condition of each object or specimen, its treatment priority, and the cost and method of treatment. A detailed conservation survey should precede any request for an IMLS grant to fund treatment.

This type of survey can help your museum identify conservation problems specific to a particular collection, object, or specimen, including the need for treatment; establish priorities for treatment; and determine the resources and time necessary to address any issues.

Environmental Survey

An environmental survey is an assessment of your museum's environmental conditions, including but not limited to temperature, relative humidity, and light. It is conducted by a conservation professional with input from other types of consultants as needed. You may use funds to survey environmental conditions in exhibition areas, storage areas, and other places where collections are housed.

An environmental survey can help a museum:

- identify specific environmental problems,
- set priorities for making environmental improvements,
- design specific solutions for correcting environmental problems,
- develop a monitoring program to better determine existing environmental conditions, and
- map collections (for living plants).
