## GRANTS TO STATE MANUAL

### Grants To States Program Background

The State Program Manual is a resource manual intended for the use of State Library personnel involved in the administration of the Library Services and Technology Act (LSTA) Grants to States program. It includes all statutes and regulations pertinent to the program as well as forms, instructions, and guidance on how to administer and report on the use of State Program funds. This online manual is based on the fall 2007 State Programs Conference plus additional information developed and distributed since the conference.

The Library Services legislation has been continually reauthorized by Congress since its inception. In 1996, Congress modified the priorities of the Federal program. Congress enacted the Library Services and Technology Act (LSTA) of 1996, Subchapter II of the Museum and Library Services Act, Pub. L. 104-208, which recognized the opportunities afforded by new technologies in promoting access to learning and information resources in all types of libraries for individuals of all ages. Most recently, Congress enacted the Museum and Library Services Act of 2010 (Pub. L. 111-340, codified at 20 U.S.C. § 9101 et seq.), which also incorporates the Library Services and Technology Act (LSTA) of 1996.
