(1) The IMLS Federal funds (allotments) are calculated using the current minimum base set into law (P.L. 115-141) and population figures from the Bureau of the Census (BOC) published in December 2017. Population data is pulled from the BOC. Data used in the state allotment table are calculated based on the most recent Census data available at the time of the grant award notification. Therefore, the population data used in the FY2018 table is what was available on the BOC website <https://www2.census.gov/programs-surveys/popest/tables/2010-2017/state/totals/nst-est2017-01.xlsx> as of December, 2017. Population data for American Samoa, Northern Marianas, Guam, Virgin Islands, Marshall Islands, Federated States of Micronesia, and Palau is used from the Census International Programs International Database. <https://www.census.gov/data-tools/demo/idb/informationGateway.php> This table reflects what was available as of August, 2017.

(2) The agency is required to reduce the FY2018 allotment of any State that did not meet their FY2015 Maintenance of Effort (MOE) requirement and did not apply for, or receive, a waiver of the requirement. Those funds deducted from states not meeting the MOE requirement have been distributed across the remaining states in accordance with (1).

(3) Aggregate allotments (including administrative costs) for Palau, Marshall Islands, and Federated States of Micronesia are awarded on a competitive basis to eligible applicants after taking into consideration recommendations from the Regional Educational Laboratory - Pacific (REL-P).

(4) Waived pursuant to 48 U.S.C. § 1469a(d).

(5) Subject to the provisions of 48 U.S.C. § 1469a(d).
