About the Institute of Museum and Library Services

The Institute of Museum and Library Services (IMLS) is the primary source of federal support for the nation's 123,000 libraries and 35,000 museums and related organizations. Our mission is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. Our grant making, policy development, and research help libraries and museums deliver valuable services that make it possible for communities and individuals to thrive. To learn more, visit www.imls.gov and follow us on [Facebook](#) and [Twitter](#).

As part of its mission, IMLS conducts policy research, analysis, and data collection to extend and improve the nation's museum, library, and information services. IMLS research activities are conducted in ongoing collaboration with state library administrative agencies; national, state, and regional library and museum organizations; and other relevant agencies and organizations. IMLS research activities are designed to provide consistent, reliable, complete, and accurate indicators of the status and trends in library and museum services and to report timely, useful, and high-quality data to Congress, the states, other policymakers, practitioners, data users, and the general public.

I. Introduction

The **State Library Administrative Agencies (SLAA) Survey** is a voluntary survey conducted biennially by the Institute of Museum and Library Services (IMLS). The SLAA Survey collects data on SLAAs in the 50 states and the District of Columbia. IMLS collects these data under the mandate in the **Museum and Library Services Act of 2018** (PL 115-410), as stated in Section 210.¹ The survey is a cooperative effort of the Chief Officers of State Library Agencies (COSLA); RTI International (RTI), the data collection agent; and IMLS.

The fiscal year (FY) 2020 survey is the 22nd in the series. The survey was put on a biennial administration schedule beginning with the FY 2010 survey; before then, it was administered annually.²

This user's guide provides detailed information on the SLAA data set pertaining to FY 2020. The data files include all SLAAs in the 50 states and the District of Columbia. The reporting unit for the survey is the SLAA. Each data file includes a total of 385 variables. Data files are available in SAS (.sas7bdat), comma-separated (.csv), and SPSS (.sav) formats. The data file record layout in Appendix A displays the layout of the data files and includes all of the variables contained therein.

Background

An SLAA is the official agency in a state with adequate authority under state law to administer state plans for libraries in accordance with the provisions of the Library Services and Technology Act (LSTA) (20 U.S.C. § 9121) of 2018. In addition to their critical role in assessing, planning, and coordinating library services and resources, SLAAs may provide important reference and information services to the state government, administer the state library or serve as the state archives, operate libraries for the blind and print disabled, and/or support the State Center for the Book. In some states, the SLAA also may function as a public library at large, providing library services to the general public.

Purpose of Survey

The purpose of the SLAA Survey is to provide state and federal policymakers and other interested users with information about SLAAs. The data collected are useful to chief officers of SLAAs; policymakers in the executive and legislative branches of federal and state governments; government and library administrators at the federal, state, and local levels; decision makers who use this survey to obtain information about services and fiscal practices; the American Library Association and its members or customers; library and public policy researchers; and the public, journalists, and others. The data collected on services provided by SLAAs to public, academic, school, and special libraries, as well as library cooperatives—when combined with the data

collected by the IMLS Public Libraries Survey and the National Center for Education Statistics surveys of academic and school libraries—provide a picture of library services that is comprehensive and nationwide in scope.

The legislative authorization to perform this data collection appears in Appendix B. IMLS library research activities are conducted in ongoing collaboration with SLAAs and other relevant agencies and organizations to extend and improve the nation's library and information services.

II. User's Guide to SLAA Data

Survey Methodology

Survey Universe

The survey universe comprises the SLAAs in the 50 states and the District of Columbia (51 total). There was no sampling: the SLAA is a census.

The respondents for the SLAA FY 2020 Survey were employed at each of the states' SLAAs. Chief officers of each SLAA assigned one or more respondents to provide data for the survey. Data were entered by the respondents and certified by the chief officers.

Web-Based Data Collection Tool and Questionnaire

The SLAA FY 2020 Survey data were collected in English over the Internet via a web-based reporting system. The web application included a user's guide and tutorial that explained its features and operation, the survey questionnaire, and a data edit check tool designed to alert respondents to anomalies or inconsistencies in their data entries. The web application was designed to minimize respondent burden, to improve data quality and timeliness, and to ensure that minimal edit follow-up would be required with state agencies to resolve data problems.

The FY 2020 survey collected data on items organized in 13 parts:

- A. SLAA Identification
- B. Governance
- C. Allied Operations, State Resource or Reference/Information Service Center, and State Center for the Book
- D. Services to Libraries and Library Cooperatives
- E. Public Service Hours, Outlets, and User Groups
- F. Collections
- G. Library Service Transactions
- H. Library Development Transactions
- I. Staff
- J. Revenue
- K. Expenditures
- L. LSTA State Program Expenditures
- M. Electronic Services and Information

Data items and definitions are provided in the survey questionnaire and the instructions for completing survey items. Additional information on the questionnaire is provided in Appendix C.

Reporting Period

The SLAA FY 2020 Survey requested that respondents report data for their respective state's 2020 fiscal year, except for the items in Part B (Governance) and Part I (Staff), for which respondents were requested to report data as of October 1, 2020. The 2020 fiscal year for most states was July 1, 2019, to June 30, 2020. Five SLAAs had fiscal years with other start and end dates:

- New York: April 1, 2019–March 31, 2020
- Texas: September 1, 2019–August 31, 2020
- Alabama, District of Columbia, and Michigan: October 1, 2019–September 30, 2020

Survey Response Rate

Unit Response

The SLAA FY 2020 Survey achieved a 100 percent unit response rate; all 51 SLAAs provided data.

Item Response

Item response rates were calculated by dividing the total number of SLAAs reporting data for an item by the total number of SLAAs in the survey universe to which that item was presented.³

With the exception of two items (GOVDOC and LIBVISITS), all items had item response rates of 100 percent. The item response rate for GOVDOC was 94 percent, and the item response rate for LIBVISITS was 96 percent.

Data Collection and Processing

Data Collection

The SLAA FY 2020 Survey was opened for data entry to SLAAs using the web-based tool beginning on January 11, 2021. The data collection was closed on March 19, 2021. RTI was the data processing agent for the survey and administered the web application, provided technical support to respondents, performed edit and nonresponse follow-up, and produced the data files and tabulations.

To reduce respondent burden, the survey was transmitted with prior-year data pre-entered for the state agency name and address (including Part A, A-10 through A-40) based on FY 2018 SLAA Survey data and for the chief officer (Part A, A-130 through A-170) and survey respondent (Part A, A-180 through A-220) based on contact files from stakeholder identification. The survey

³ The SLAA Survey instrument contains a limited number of “logical skips” in which items are not presented due to the response to an earlier item. For example, some items are lists containing an “Other” option; if the “Other” option is not selected, respondents are not given an opportunity to enter further information. Values missing in the data files for this reason are so identified. The frequencies and percentages given in Appendix E, however, effectively report these logical skips as valid, non-missing values.

instructions directed respondents to review the pre-entered data and to update any information that had changed since the FY 2018 survey administration. The system also displayed prior-year responses in a non-editable, display-only field for reference for the following: Part E, E-101 through E-080; Part F, F-010 through F-050; Part J, J-070 through J-150; and all of parts G, H, I, K, and L.⁴ All other data cells were left blank for respondents to complete. All items required a response except those that followed a logical skip pattern. The system would not allow the respondent to submit and “lock” data unless the respondent answered or provided a justification as to why an answer was not available.

Data Processing

To ensure accuracy, data were checked and edited as necessary during and after collection. In addition, missing values were imputed (see details below).

Data elements collected about the state officer and the respondent (names and contact information included in Part A of the questionnaire) and other data elements associated with administrative data collection processes were removed from the final public data file.

Edit Checks During Data Collection

The web-based data collection tool alerted respondents to potential errors in the data during the data entry process through interactive edit check warnings. The respondent was required to address these warnings through an edit check report, which could be viewed on-screen or printed. The edit check tool enabled the respondent to submit an edited data file to RTI that typically required minimal follow-up to resolve data problems. The edit check tool included three types of edits:

- Relational edit checks (data consistency checks between related data elements). For example, an edit message was generated if the SLAA was designated as a federal depository library, but the respondent did not enter data for the item on the type of federal depository library.
- Out-of-range edit checks (comparisons of data reported for an item to the “plausible range” of numeric values). For example, an edit message was generated if the respondent entered a value less than 0.5 for annual circulation transactions per annual library visit.
- Blank/zero/invalid edit checks (checks of reported data against acceptable values). For example, an edit message was generated if the respondent entered a value of 0 for the data element on the number of book/serial volumes.

Respondents were required to address all edit check warnings in the web-based data collection tool prior to submitting (or “locking”) their data.

⁴ Data fields that stored a numeric value generally included a read-only display of the value entered for FY 2018, but text fields and radio buttons did not. To assist with data collection and entry, respondents could print their last survey pre-populated with their FY 2018 responses.

Post-Edit Processing

After respondents locked their data, RTI performed additional edit checks or post-lock processing on the data (e.g., a comparison of the sum of the reported detail to a reported total). In previous survey administrations, if an SLAA's data failed any post-edit tests, RTI delivered an edit report to the respondent for further data editing and cleaning. Respondents were asked to correct the data or to verify the data as correct. RTI analysts incorporated the edited data into the data file. This year, only two issues needed to be addressed:

- South Dakota: reported “Other Agency” for LARGERAG and then filled “Department of Education” into OTHAGSP. LARGERAG was recoded to “Department of Education” and OTHAGSP was set to “LOGICAL SKIP.”
- District of Columbia: follow-up correspondence confirmed that, like the other 50 SLAAs, the DC SLAA does collect public library statistics. The value of “N - Not Provided” originally assigned for COLLBSTA was changed to “D - Directly.”

In addition, responses to the seven FIOThnA items regarding sources of federal revenue and the associated FIOThnB dollar amount variables were consolidated and coded into new variables. The following four yes/no indicator variables were constructed to cover the most frequent FIOTh responses: FIOTh_IMLSCARES, FIOTh_IMLSOTH, FIOTh_NEH, and FIOTh_NHPRC. Any remaining responses were captured in reformulated FIOTh1A–FIOTh3A variables. More detail on the assignment of FIOTh variables is provided in Appendix D.

Finally, minor changes were made to correct obvious typographical errors and to harmonize text variables.

Imputation

Imputation was performed for two numerical variables that had missing values, as shown in Table 1. In some cases, the states involved also had missing values in FY 2018. Values are marked in Table 1 as being “Imputed” or “Reported.” Growth rate imputation of missing values was used in alignment with prior SLAA surveys. Values for FY 2018 were multiplied by variable-specific growth factors calculated as the mean of the FY 2020/FY 2018 ratios over all states for which both FY 2018 and FY 2020 values were present.

Table 1. Growth Factors and Imputed Values of Numerical Variables

Variable	Growth Factor	Imputed Value [FY 2018 value]
GOVDOC	0.940	CT = 4,101,436 [4,362,343] (Imputed) OH = 1,701,327 [1,809,555] (Imputed)
LIBVISITS	0.522	CA = 129,170 [247,409] (Imputed) IL = 36,645 [70,188] (Imputed) UT = 4,253 [8,147] (Reported)

Two associated imputation flag variables, GOVDOC_F and LIBVISITS_F, were added to the data set. Each takes the value “GR18” (growth factor) for states with imputed values based on reported values in FY 2018, “G118” for those for which the value was imputed using the growth model applied to data imputed in FY 2018, and “R” for data as reported by the respondent.

Other Variables Added During Post-Edit Processing

Three additional variables were added to the data files to aid users in performing common analyses, including those that are presented in the FY 2020 statistical tables, which report per capita metrics as well as data for four groups of SLAAs based on location within their jurisdictions' government.

Region: The variable named OBEREGION is made up of the U.S. Bureau of Economic Analysis's regions as shown in Table 2.

Table 2. Bureau of Economic Analysis Region Codes

Code	Region
01	New England (CT ME MA NH RI VT)
02	Mid-East (DE DC MD NJ NY PA)
03	Great Lakes (IL IN MI OH WI)
04	Plains (IA KS MN MO NE ND SD)
05	Southeast (AL AR FL GA KY LA MS NC SC TN VA WV)
06	Southwest (AZ NM OK TX)
07	Rocky Mountains (CO ID MT UT WY)
08	Far West (AK CA HI NV OR WA)

State Population: The variable named POPU_ST is the resident population derived from the 2020 decennial census.⁵

Administrative Structure Groups: The variable named ADMINGROUP was developed based on Bertot and White's 2014 study of state library agencies' governance, operations, and organization, with some slight modifications.⁶ Two of the six categories described by Bertot and White were the same (i.e., “Department of Education” and “Other Department”), but the other four were recombined into two categories for this variable, as follows:

- A. Rather than being divided into two separate categories, the two SLAAs within the legislative branch and SLAAs in independent agencies were combined into a category labeled “*Independent Agency/Legislative Branch*” because Bertot and White found that

independent agencies were more likely to have the ability to advocate directly with legislative staff, much like SLAAs housed within the legislative branch itself.

- B. Because departments of state and departments of administration tend to serve largely the same function, providing basic administrative services such as capital procurement and personnel management, Bertot and White's two separate categories were combined into one, labeled "*Department of State/Administration.*"

The structure of administrative groups is described in Appendix F, and the assignment of SLAAs to administrative locations based on the responses to the four variables (BRANCH, INDAGY, LARGERAG, and OTHAGSP) is summarized in the table and figure in Appendix G.

Metadata Warehouse

Information received from states during the edit check warning process and the post-edit process was archived to create a metadata warehouse. IMLS and RTI reviewed these metadata to select information that may be useful to analysts.

Nonsampling Error

Because all units in the universe were surveyed, these data are not subject to sampling error. However, the SLAA data are subject to nonsampling error, such as measurement and processing errors. Every effort has been made to mitigate such errors. The editing efforts described above are designed to decrease the number of errors due to inaccurate responses or processing problems. Imputation lessens the effect of nonresponse. Extensive quality control checks were performed, iteratively, by both RTI and IMLS.

Disclosure Limitation

The SLAA public data files contain no personally identifiable information (PII),⁷ but they do contain potentially sensitive information in the form of salary and benefits expenditures for those SLAAs with few employees. However, only the District of Columbia (6 full-time equivalent [FTE] staff) and Hawaii (4 FTE staff) have fewer than 10 FTE staff. IMLS policy does not require that associated expenditures be suppressed or altered to protect confidentiality.⁸

Using the Data

SLAA Public Use Data File

IMLS provides one public use data file for this survey (slaa2020). The data file is provided in multiple formats: SAS (.sas7bdat), comma-delimited (.csv), and SPSS (.sav). The SLAA FY 2020

⁷ As noted earlier, personal information about the state officer and respondent gathered during the data collection phase were removed from the public data files.

⁸ IMLS policy requires suppression of salary and benefits data for entities with two or fewer staff.

public use data file consists of 51 records (observations), one for each SLAA. The data file has 385 variables, including imputation flags.

Comparisons of FY 2020 Data to Prior-Year Data

Missing data were imputed beginning with the FY 1999 survey. Data users should take into consideration that items that include imputations are not strictly comparable to data from surveys prior to FY 1999.

State comparisons should be made with caution because states vary in their fiscal year reporting periods and may vary in their interpretation of the survey items. Also, the District of Columbia, although not a state, is included in the survey.

Changes to FY 2020 Data Collection

Between the FY 2018 and FY 2020 data collection cycles, several items were added to the survey instrument to address the impact of the COVID-19 coronavirus pandemic. The COVID-19-related variables will be released in a separate supplemental file with accompanying documentation. Aside from those additions, no changes were implemented to the remainder of the survey items between the FY 2018 and FY 2020 SLAA data collections.

For FY 2020, the web data collection system also included a new feature that automatically calculated totals for most of the fields that are sums of other fields. The total values were displayed on-screen to assist with data entry and saved as variable values in back-end data. Respondents did not have to manually calculate the values and enter them.

Appendices

Appendix A—Record Layout of the SLAA Data File

In FY 2020, variables were added specific to the COVID-19 coronavirus pandemic. Those variables will appear in a COVID-19-specific data set and documentation.

Appendix B—Legislative Authorization

IMLS collects these data as authorized by its congressional mandate, the Museum and Library Services Act of 2018, as stated in 20 U.S.C. § 9108 (Policy research, data collection, analysis and modeling, evaluation, and dissemination):

(a) In general

The Director shall regularly support and conduct, as appropriate, policy research, data collection, analysis and modeling, evaluation, and dissemination of information to extend and improve the Nation's museum, library, and information services.

(b) Objectives

The objectives of the policy research, data collection, analysis and modeling, evaluation, and dissemination of information carried out under this section include the following:

- (1) To enhance and expand the capacity of museums, libraries, and information services to anticipate, respond to, and meet the evolving needs of communities and the public, including by identifying trends and developments that may impact the need for and delivery of services.
- (2) To provide information and data on the role, value, and impact of museum, library, and information resources, including the identification of trends and potential gaps in the availability and use of museum and library services by their communities and the public.
- (3) To measure the effectiveness of museums, libraries, and information services throughout the United States, including the impact of Federal programs authorized under this Act.
- (4) To identify indicators and outcomes that can be used to create enhancements to the efficiency and efficacy of museum, library, and information services.
- (5) To promote advancement and growth in museum, library, and information services through sharing of best practices and effective strategies in order to better serve the people of the United States.
- (6) To facilitate planning for, and building of, institutional capacity in order to improve—
(A) museum, library, and information services at the national, State, local, and regional levels; and
(B) international communications and cooperative networks.
- (7) To support and enhance collaborative professional networks and consortia that use shared, meaningful, and actionable data analysis and modeling to advance museum, library, and information services and address community needs.

(c) Authority to contract and enter into other arrangements

The Director is authorized to enter into grants, contracts, cooperative agreements, and other arrangements with Federal agencies, public and private organizations, and other entities with expertise the Director determines appropriate, to further the objectives described in subsection (b) and to carry out the responsibilities under subsection (f).

(d) Consultation and Public Engagement

In carrying out subsection (a) and in furtherance of the objectives described in subsection (b), the Director—

- (1) shall conduct ongoing collaboration (as determined appropriate by the Director) and consult with—
 - (A) State library administrative agencies; and
 - (B) National, State, tribal, and regional museum and library organizations; and
- (2) may also collaborate or consult with—
 - (A) cooperative networks of geographic- or discipline-based museums and libraries; and
 - (B) other applicable agencies, organizations (including international organizations), entities (including entities with expertise in the fields of data collection, analysis and modeling, and evaluation), and community stakeholders.

(e) Assistance to museums and libraries

The Director shall provide technical support and assistance (and other resources, to the extent practicable) to ensure consistency in data reporting and help the museum and library fields with meeting the objectives of this section.

(f) Dissemination

- (1) In general—
- (2) Each year, the Director shall widely disseminate, as appropriate to further the objectives described in subsection (b)—
 - (A) the results, data, reports, findings, studies, surveys, and other information obtained under this section;
 - (B) the means and approaches by which the objectives described in subsection (b) were accomplished; and
 - (C) information regarding the manner and extent to which collaboration and consultation were conducted, as required by subsection (d).

(3) Formats to be used—

The information described in paragraph (1) shall be shared in formats that facilitate access and ease of use and are searchable.

(g) Authorization of appropriations

(1) In general

There are authorized to be appropriated to carry out this section \$3,500,000 for each of the fiscal years 2020 through 2025.

(2) Availability of funds

Sums appropriated under paragraph (1) for any fiscal year shall remain available for obligation until expended.

Appendix C—SLAA Survey Questionnaire and Instructions, FY 2020

The State Library Administrative Agencies Survey (SLAA) FY 2020 data collection tool is approved by the Office of Management and Budget (OMB) under the OMB package number 3137-0072. This OMB number will expire on October 31, 2023.

D_PA-090 Did the SLAA engage in partnerships with any government agencies or departments outside your SLAA to provide services due to the Coronavirus (COVID-19) pandemic? Y/N

Note: Include partnerships between your SLAA and other government agencies or departments that provided library or non-library related services. These may be special partnerships or initiatives that are outside of the normal scope for your SLAA. Examples could include partnering with a health department to provide health or COVID specific outreach and materials, partnering with a labor department on unemployment forms or information, or coordinating with election boards on voter registration, outreach, or materials.

Yes No

If Yes: Describe how the SLAA partnered with other government agencies or departments to provide services due to the Coronavirus (COVID-19) pandemic?

D_PA-090.1 _____ (Write in, 250 characters max)

Part E: Public Service Hours, Outlets, and User Groups

6. Enter the total hours open in a typical week for ALL SLAA outlets, regardless of whom they serve. Do not report an allied operations outlet as an SLAA outlet. Example: If the SLAA has a main outlet with no bookmobile or other outlets and is open for public service 40 hours in a typical week, report 40 hours. If the SLAA has a main outlet, a bookmobile, and two other outlets open 40, 20, 35, and 35 hours respectively, in a typical week, report 130 hours (40+20+35+35=130 hours per typical week).

Survey Item	Hours	Number
E-010	Total hours/weeks (all SLAA outlets, regardless of whom they serve)	

E-011 Did any SLAA outlets physically close entirely due to the Coronavirus (COVID-19) pandemic?

Yes No

Note: An outlet is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building.

E-011.1 If yes, for how many days were SLAA outlets closed (when they typically would have been open) due to the Coronavirus (COVID-19) pandemic?

E-011.2 If yes, did SLAA staff continue to provide services to the public during any portion of the period when the building was physically closed to the public?

Yes No

Note: Services to the public can include activities such as: answering calls, emails, or texts with answers to information requests from the public; hosting virtual programming or recorded content; offering ‘curbside’, delivery (mail or drop-off), or drive-thru circulation of physical materials; managing IT services to ensure external Wi-Fi access; and providing other types of online and electronic services.

E-012 Did any SLAA outlets reduce hours, but not close entirely, due to the Coronavirus (COVID-19) pandemic?

Yes No

Note: Please consider any hours when the building was physically closed but typically would have been open. “Physically closed” is when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building.

E-012.1 If E-012 is yes: For how many days did SLAA outlets have reduced hours (when they typically would have been open) due to the Coronavirus (COVID-19) pandemic?

E-013 If E-011 or E-012 = yes: During a typical week when SLAA outlets had reduced hours or were closed due to the Coronavirus (COVID-19) pandemic, how many total hours were SLAA outlets open?

7. Enter the total hours that the main or central SLAA outlet is open in a typical week to serve the general public or State government employees, by the following categories. Only one outlet may be designated as the main or central outlet.

Survey Item	Hours	Number
E-020	Total hours/week (main or central outlet)	
E-030	Monday-Friday after 5:00 p.m. (main or central outlet)	
E-040	Saturday and Sunday (main or central outlet)	

8. Enter the total number of SLAA outlets by type, regardless of whom they serve. Only one outlet may be designated as the main or central outlet. Do not report an allied operations outlet as an SLAA outlet.

Survey Item	Outlet	Total # (a)	How many of these outlets closed to the public due to the Coronavirus (COVID-19) pandemic? (b)	How many of these outlets implemented limited public occupancy practices for in-person services due to the Coronavirus (COVID-19) pandemic? (c)
E-050	Main or central outlet			
E-060	Other outlets, excluding bookmobiles			
E-070	Bookmobiles			
E-080	TOTAL Outlets			

Note: An outlet is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building. Please count any outlet that was ever physically closed during the Coronavirus (COVID-19) pandemic. An outlet could have been both physically closed *and* had a limited occupancy practice at different times during the Coronavirus (COVID-19) pandemic.

Limited public occupancy practices can include reduced open hours, limits on the number of public members inside the physical building, appointment only on-site library use, visitor time limits, closed stacks or meeting rooms, etc. Please count any outlet that ever had a limited public occupancy practice for in-person services due to the Coronavirus (COVID-19) pandemic. An outlet could have been both physically closed *and* had a limited public occupancy practice at different times during the pandemic.

9. Enter the number of SLAA outlets that serve the following user groups, in whole or in part, by type of outlet.

Survey Item	User Groups	Main or Central outlet (a)	Other outlets, excluding bookmobiles (b)	Bookmobiles (c)	TOTAL OUTLETS (d)	How many total outlets serving this group closed due to the Coronavirus (COVID-19) pandemic? (e)	How many total outlets serving this group implemented limited occupancy policies due to the Coronavirus (COVID-19) pandemic? (f)
E-090	Blind/physically handicapped individuals						
E-100	Residents of State correctional institutions						
E-110	Residents of other State institutions						
E-120	State government employees (executive, legislative, or judicial)						
E-130	General public						

Note: An outlet is considered physically closed when the public cannot access any library buildings or bookmobiles, regardless of staff access. A building can be physically closed but still offer virtual, Wi-Fi, or “curbside” services outside the building. Please count any outlet that was ever physically closed during the Coronavirus (COVID-19) pandemic. An outlet could have been both physically closed *and* had a limited occupancy practice at different times during the Coronavirus (COVID-19) pandemic.

Limited public occupancy practices can include reduced open hours, limits on the number of public members inside the physical building, appointment only on-site library use, visitor time limits, closed stacks or meeting rooms, etc. Please count any outlet that ever had a limited public occupancy practice for in-person services due to the Coronavirus (COVID-19) pandemic. An outlet could have been both physically closed *and* had a limited public occupancy practice at different times during the Coronavirus (COVID-19) pandemic.

Part F: Collections

10. Enter the total number of volumes or physical units in the following selected formats in all SLAA outlets (main or central, bookmobiles, and other outlets) that serve the general public and/or State government employees.

Survey Item	Selected Formats	Number
F-010	Book and serial volumes (exclude microforms) (exclude collections of braille books owned by the National Library Service for the Blind and Physically Handicapped, Library of Congress)	
F-020	Audio materials (exclude collections of talking books owned by the National Library Service for the Blind and Physically Handicapped, Library of Congress)	
F-030	Video materials	
F-040	Current serial subscriptions (titles, not individual issues) (include print subscriptions only) (exclude microform, electronic, and digital subscriptions)	
F-050	Government documents (include only government documents not accessible through the library catalog and not reported elsewhere)	

11. Is the SLAA designated as a Federal or State depository library for government documents? Specify Yes or No for each item.

F-060 Yes No State depository library

F-070 Yes No Federal depository library — Specify Yes or No for each item:

F-080 Yes No Regional

F-090 Yes No Selective

Part G: Library Service Transactions

12. Enter ANNUAL totals for the following types of service transactions in all SLAA outlets (main or central, bookmobiles, and other outlets) that serve the general public and/or State government employees.

Survey Item	Service Transactions	Number	Was this service impacted by the Coronavirus (COVID-19) pandemic?
G-010	Circulation (Exclude items checked out to another library)		G-010.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
	Interlibrary loan/document delivery:		
G-020	Provided to other libraries		G-020.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
G-030	Received from other libraries and document delivery services		G-030.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
G-040	Reference transactions		G-040.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
G-050	Library visits		G-050.1 <input type="checkbox"/> Yes <input type="checkbox"/> No

Note: IMLS will compare this data to data from the previous cycle to identify the impact of the Coronavirus (COVID-19) on service transactions.

Part H: Library Development Transactions

13. Enter ANNUAL totals for the following types of library development transactions of the SLAA.

Survey Item	Library Development Transactions	Number	Was the total number impacted by the Coronavirus (COVID-19) pandemic?
H-010	LSTA and State grants: Grants awarded		H-010.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
H-020	Continuing education programs: Number of events		H-020.1 <input type="checkbox"/> Yes <input type="checkbox"/> No
H-030	Total attendance at events		H-030.1 <input type="checkbox"/> Yes <input type="checkbox"/> No

H-040 Did the SLAA provide any Coronavirus (COVID-19) pandemic related library development (e.g., virtual services, COVID-19 related professional development training, meetings with library leaders, resources/tool kits, re-opening guidance)?
 Yes No

Part I: Staff

14. Enter total number of SLAA staff in FTEs (full-time equivalents) (to two decimal places), by type of service. Report all staff on the payroll as of October 1, 2020, and unfilled but budgeted positions.

Note: Forty hours per week is the measure of full-time employment for this survey. FTEs (full-time equivalents) of employees in any category may be computed by taking the number of hours worked per week by all employees in that category and dividing it by 40. Report staff based on the SLAA organization chart. A given position (e.g., State Data Coordinator) may be part of administration in one agency, library development in another, and library services in another agency. If an employee provides more than one service, allocate the FTE among appropriate categories.

Survey Item	Type of Service	ALA MLS Librarian (a)	Non ALA-MLS Librarians and Non MLS Librarians (b)	Other Professional and Non-Professional Staff (c)	Total Staff (d)	Prior Year Total
I-010	Administration					
I-020	Library development					
I-030	Library services					
I-040	Other services					
I-050	TOTAL STAFF					

Did your SLAA have to implement any of these staffing changes due to the Coronavirus (COVID-19) pandemic in FY2020? (This question only refers to paid staff.)

- I-060 Yes No Change in telework options
- I-070 Yes No Furloughs/layoffs
- I-080 Yes No Reduced staff hours
- I-090 Yes No Emergency leave options (state or federal)
- I-100 Yes No Staff re-assignment to another agency

Note: Include reassignments to other government agencies (e.g., to process unemployment claims), as well as other activities such as the use of SLAA staff to distribute materials. Volunteering during work hours would count but volunteering off hours would not.

Part J: Revenue

15. Are all public library State funds administered by the SLAA? Specify Yes or No.

Note: Answer this question based on State funds distributed to individual public libraries and library cooperatives serving public libraries only in State fiscal year 2020. If no State funds are reported in Part K in items K_FA-010(b) or K_FA-020(b), the answer should be No.

J-010 Yes No

16. Does the SLAA administer any State funds for the following types of libraries? Specify Yes or No.

Note: Answer this question based on State funds distributed to libraries and library cooperatives in State fiscal year 2020. If no State funds are reported in Part K in items K_FA-010(b) to K_FA-050(b) or K_FA-070(b), the answer should be No.

J-020 Yes No Academic libraries

J-030 Yes No School library media centers

J-040 Yes No Special libraries

J-050 Yes No Library cooperatives

17. Enter total SLAA revenue, by source and type of revenue. Exclude carryover funds. Include revenue for allied operations only if it is part of SLAA budget. Include all funds distributed to libraries and library cooperatives if the funds are administered by the SLAA. Specify other sources of federal revenue and the amount of funding received for each of the other sources.

Survey Item	Federal Revenue	Amount
J-070	LSTA (Library Services and Technology Act) Grants to States Programs (Report the funds drawn down from the federal government from the LSTA Grants to States Program during State fiscal year 2020, whether drawn from one or more federal fiscal year allotments. Do not include IMLS Discretionary funds such as National Leadership Grants, Laura Bush 21st Century Librarian Program, or Sparks! Ignition – report these grants in item J-080 (Other Federal revenue).	
J-080	Other Federal revenue: (Report revenue in this item if the SLAA received federal revenue other than LSTA Grants to States funds (e.g., CARES ACT funding from IMLS, CARES Act funding from other federal sources, National Endowment for the Humanities grants, National Historical Publications and Records Commission grants, LSTA National Leadership Grants, Laura Bush 21st Century Librarian grants, etc.). If your State acts as the fiscal agent for a multi-State grant, report only the funds designated for your State.)	
J-080.1 – J-080.10	Specify program(s), title(s), and funding amount for each source of revenue if other federal revenue is reported in item J-080. Program and Title: _____	
J-090	TOTAL FEDERAL REVENUE	

Survey Item	State and Other Revenue	Amount
J-100	SLAA operation	
J-110	State aid to libraries	
J-120	Other State revenue	
J-130	TOTAL STATE REVENUE	
J-140	Other revenue	
J-150	TOTAL REVENUE	

Did SLAA receive any revenue related to the Coronavirus (COVID-19) pandemic (do NOT include funding related to the LSTA Grants to States CARES Act funding)? If, yes, please list below.

Survey Item	Federal, State and Other Revenue	Amount
J-200	Specify program(s), title(s), and funding amount for each source of the Coronavirus (COVID-19) pandemic related revenue. Program and Title: _____	

Part K: Expenditures

18. Enter total SLAA expenditures, by source of revenue and type of expenditure. Include all LSTA expenditures. Include expenditures for allied operations only if the expenditures are from the SLAA budget. Include all funds distributed to libraries and library cooperatives if the funds are administered by the SLAA.

Operating expenditures for SLAA and allied operations. Do not include funds distributed to libraries and library cooperatives in items K_AO-010 to K_AO-060.		Amount by source

Part L: LSTA State Program Expenditures

19. Enter total SLAA State program expenditures, by type of expenditure. Report expenditures in one and only one category. These expenditures should also be reported in Part K.

Survey Item	Type of Expenditure	Amount
L-010	Statewide service (exclude sub-grants to single libraries or agencies providing statewide services)	
L-020	Grants (include sub-grants to single libraries or agencies providing statewide services)	
L-030	LSTA administration. Expenditures of LSTA funds for administrative costs in connection with programs and services carried out under this Act. Note: These are the costs associated with the SLAA's management, oversight, and administration of the IMLS LSTA Grants to States program and are costs that would be considered administrative costs and subject to the 4% cap.	
L-040	TOTAL LSTA EXPENDITURES	

Part M (a): Electronic Services and Information

20. Does the SLAA fund or facilitate any of the following electronic networking functions at the State level? Specify Yes or No for each item.

M-010 Yes No Electronic network planning or monitoring

M-020 Yes No Electronic network operation

Database development:

M-030 Yes No Bibliographic databases

M-040 Yes No Full text or data files

21. Does the SLAA fund or facilitate digitization or digital programs or services in any of the following instances? Specify Yes or No for each item.

M-050 Yes No for the SLAA itself

M-060 Yes No Via grant or contracts to other State agencies

M-070 Yes No Via grants or contracts to other libraries or library cooperatives

M-070.1 **Has SLAA funding or facilitation of digitization or digital programs or services changed due to the Coronavirus (COVID-19) pandemic?**

Yes No

M-070.2 **If Yes to M-070.1, describe how SLAA funding or facilitation of digitization or digital programs or services changed.**

_____ (250 characters max)

22. Does the SLAA fund or facilitate library access to the Internet in any of the following ways? Specify Yes or No for each item.

M-080 Yes No Library staff (State and local)

M-090 Yes No State library end users

M-100 Yes No Providing direct funding for Internet access

M-110 Yes No Providing equipment

M-120 Yes No Providing access to directories, database, or online catalogs via the Internet

M-130 Yes No Managing a Web site, file server, bulletin boards, or electronic mailing lists

M-130.1 **Has SLAA funding or facilitation of library access to the Internet changed due to the Coronavirus (COVID-19) pandemic?**

Yes No

M-130.2 **If Yes to M-130.1, describe how SLAA funding or facilitation of library access to the Internet changed.**

_____ (250 characters max)

23. Enter the number of workstations that are used for Internet access by the general public in all SLAA outlets that serve the public, by the following categories. Include terminals used by both the SLAA staff and the public. Exclude terminals that are for SLAA staff use only.

Survey Item	Internet Workstations Available to the General Public	Number
M-140	Library-owned public-access graphical workstations that connect to the Internet for a dedicated purpose (e.g., to access an OPAC or specific database, or to train the public) or multiple purposes. (For this count, the term "library-owned" includes computers leased by the State library agency.)	
M-150	All other public access Internet workstations in the library. (Report non-library computers placed in the library by other agencies or groups. Report non-graphical workstations.)	

Part M (b): Electronic Services and Information

24. How much does the SLAA expend for statewide database licensing, by source of revenue? These expenditures should also be reported in Part K.

Survey Item	Federal (a)	State (b)	Other (c)	TOTAL (d)
M-160	Statewide-database licensing			

25. Do your statewide database licenses, paid for by funds reported in question 24, include access by the following? Specify Yes or No for each item.

- M-170 Yes No Public libraries
- M-180 Yes No Academic libraries
- M-190 Yes No School library media centers
- M-200 Yes No Special libraries
- M-210 Yes No Library cooperatives
- M-220 Yes No Other State agencies
- M-230 Yes No Remote users

26. Does the SLAA facilitate or subsidize electronic access to the bibliographic records or holdings of other libraries in the State in any of the following ways? Specify Yes or No for each item.

- M-240 Yes No Web-based union catalog (international, national, statewide, multistate, regional)
- M-250 Yes No Other type of electronic access
- M-260 Specify _____

27. Is the SLAA an applicant for the Universal Service (E-rate discount) Program? Specify Yes or No for each item.

- M-270 Yes No

Appendix D—Consolidation of Other Federal Revenue (FIOTH) Variables

Verbatim responses for the federal revenue source variables (FIOTHnA) and the associated amounts (FIOTHnB) were consolidated into four thematically linked indicator variables if there was mention of funding from the IMLS CARES Act (FIOTH_IMLSCARES), other IMLS sources (FIOTH_IMLSOTH), the National Endowment for the Humanities (FIOTH_NEH), or the National Historical Publications and Records Commission (FIOTH_NHPRC). Other verbatim entries that could not be categorized in this way were retained in placeholder variables FIOTH1A, FIOTH2A, and FIOTH3A, as applicable. Specific responses and amounts (which are stored in variables FIOTH1B, FIOTH2B, and FIOTH3B) are summarized in Table D1. Table D2 summarizes revenue amounts by state.

Appendix E—Frequencies of Categorical Variables, Descriptive Statistics for Continuous Variables, and Imputation Flag Frequencies on the SLAA Data File

The tables in Appendix E present frequencies or descriptive statistics for all items on the survey. Most items had an item response rate of 100 percent, but two variables (G-050 “Library Visits” and F-050 “Government Documents”) had item response rates of 94 percent and 96 percent, respectively. The missing data points were imputed for these three items using the growth rule. The data files include missing values declarations for any values such as “P—Logical skip.” However, the percentages included in Table E1 reflect inclusion of all cases and do not report “valid percentages” that would be produced given the missing values declarations.

Appendix G—Decision Tree: Assignment of SLAAs to Administrative Groups

Table G1. Decision Process for Assigning SLAAs to Administrative Groups

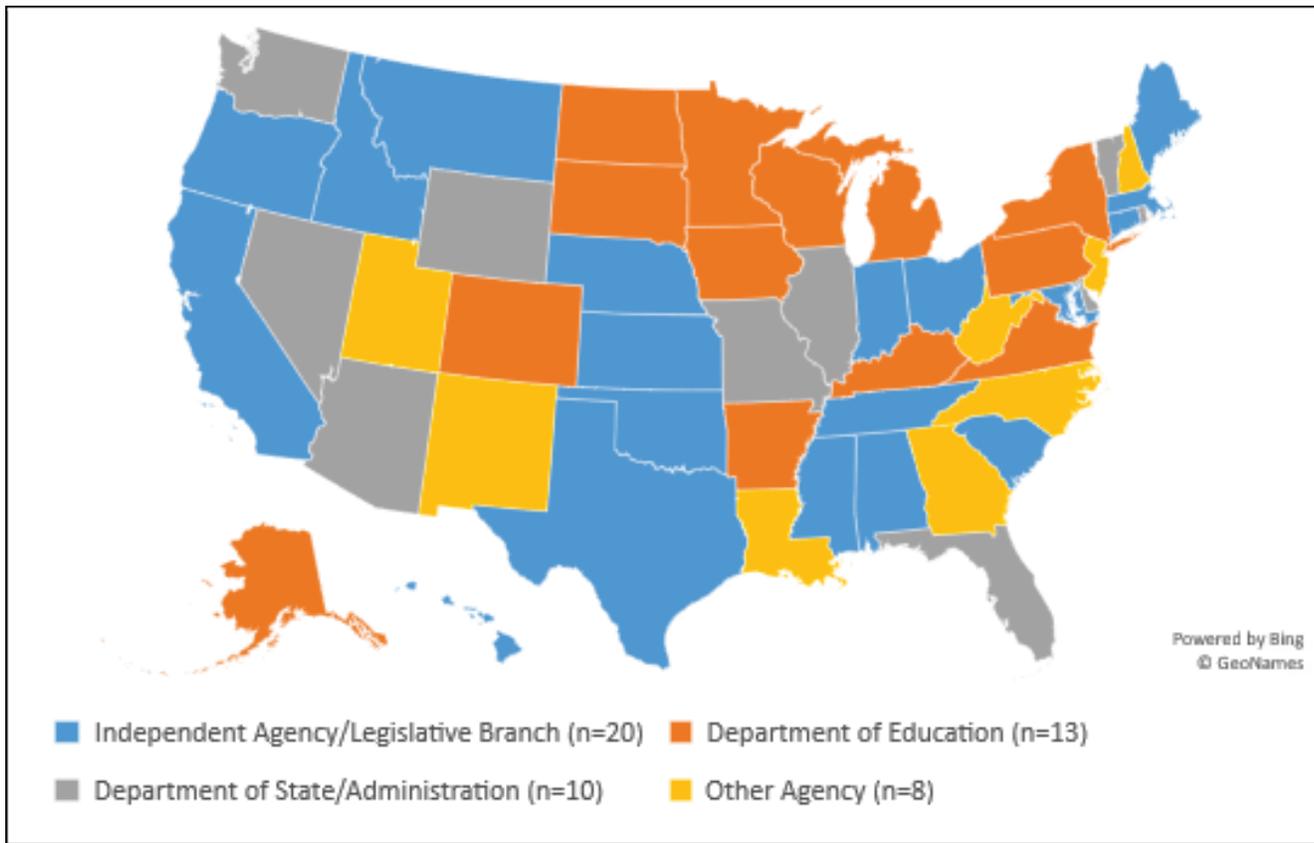

BRANCH					
Value = L (Legislative, n=1) Assigned to “Independent/ Legislative” (TN)		Value = E (Executive, n=50)		INDAGY = “B” or “G” Independent agency (n=18)	Assigned to “Independent/Legislative” (AL, CA, CT, DC, ID, IN, KS, ME, MD, MA, MS, MT, NE, OH, OK, OR, SC, TX)
				LARGERAG Value = “C” (Cultural, n=4)	Assigned to “Other” (LA, NH, NM, NC)
			Value = “E” (Education, n=12)	Assigned to “Dept. of Education” (AK, AR, CO, IA, MI, MN, NY, ND, PA, SD, VA, WI)	
			Value = “S” (State, n=5)	Assigned to “Dept. of State/Administration” (AZ, DE, FL, MO, WA)	
			Value = “O” (Other, n=11) ¹	HI assigned to “Independent/Legislative” WV assigned to “Other”	
					
			OTHAGSP		
			Write-in Responses	Assignment	
			SECRETARY OF STATE (n=1) DEPARTMENT OF ADMINISTRATION (n=3) ² AGENCY OF ADMINISTRATION (n=1)	Assigned to “Dept. of State/Administration” (IL, NV, RI, VT, and WY)	
			THE EDUCATION AND WORKFORCE DEVELOPMENT CABINET (n=1)	Assigned to “Dept. of Education” (KY)	
			BOARD OF REGENTS OF THE UNIVERSITY SYSTEM OF GEORGIA THOMAS EDISON STATE UNIVERSITY DEPARTMENT OF HERITAGE AND ARTS	Assigned to “Other” (GA, NJ, UT)	

Notes:

¹ For a small number of states, an assignment was made based on the pattern of responses, write-in answers on the OTHAGSP item, and historical assignments. HI and WV were more unique cases. Although the Hawaii SLAA was assigned by Bertot and White (2014) and in the FY 2016 SLAA report to the Department of Education based on its write-in response to the OTHAGSP item, it was not actually located within the state’s department of education. The state library chief indicated that it was an independent agency. West Virginia was assigned to “Other,” consistent with Bertot and White’s (2014) indication that its situation is ambiguous.

² In one case, this was reported as “Administration & Information.”
